

LORD'S
CARES BETTER

*Think Beauty
Think Lord's*

About Us

Lords Cares has been a pioneer in the skincare industry for 39 years, establishing itself as a trusted international manufacturer and exporter of premium skincare products. Our commitment to quality, innovation, and customer satisfaction has made us a globally recognized brand. Research & Development (R&D) – Driving Innovation. At Lords Cares, we believe that great skincare begins with science. Our dedicated R&D team, comprising expert dermatologists, chemists, and skincare specialists, continuously researches and develops innovative formulations to address diverse skin concerns. We focus on harnessing the power of natural and clinically tested ingredients to create safe, effective, and sustainable skincare solutions. Our state-of-the-art R&D lab is equipped with advanced technology, enabling us to test, refine, and perfect each formulation. We conduct extensive research on ingredient efficacy, skin compatibility, and emerging skincare trends to ensure our products meet global standards. Every product undergoes rigorous dermatological testing and quality checks before reaching our customers. Our Expert Team – The Backbone of Lords Cares The success of Lords Cares is driven by our highly skilled team of professionals

INCLUDING:

- Dermatologists & Skincare Scientists Innovating advanced skincare formulations.
- Quality Control Specialists Ensuring safety, purity, and effectiveness.
- Production & Manufacturing Experts Utilizing cutting-edge technology for large-scale production.
- Commitment to Excellence our modern manufacturing units are continuously updated with the latest technological advancements, allowing us to meet international quality benchmarks. With a strong presence in the USA, Canada, Australia, Bangladesh, Nepal & Africa other global markets, Lords Cares is committed to redefining skincare through research, expertise, and excellence. Lords Cares continues to innovate and deliver skincare solutions that promote healthier, more radiant skin worldwide. At Lord's Cares, we bring 39+ years of manufacturing expertise with accredited labs and a portfolio of 200+ SKUs, including Korean skincare.

Beyond our established product portfolio, Lords Cares offers comprehensive custom formulation and manufacturing services. We welcome your specific product requirements and innovative ideas, and our team is ready to engage in detailed consultations to explore potential collaborations.

Vision:

"To be recognized as a global leader in the skincare industry, setting the benchmark for scientific rigor, product efficacy, and ethical manufacturing. We aspire to cultivate a future where Lords Cares is synonymous with transformative skincare experiences, driving innovation and empowering brands to realize their unique visions, ultimately promoting skin health and well-being for individuals worldwide."

Mission

"To meticulously blend scientific innovation with the purity of natural ingredients, developing and manufacturing premium, safe, and sustainable skincare solutions for a global clientele. Through our expert team, state-of-the-art R&D, and commitment to continuous improvement, we empower brands and individuals to achieve healthier, more radiant skin, while fostering lasting partnerships based on trust and excellence."

Founder Desk

Leading ourselves on a journey to find products that are potent yet skin loving. I read up extensively on natural ingredients from across the globe and what I discovered made me more passionate and determined. Did you know that nature is a store house of active ingredients that are effective, clean and caring? This knowledge lead us to collaborate with skin experts to create blends and formulations that worked for every skin type and thus 'lord's cares' was created. As the products took shape we discussed deeply about skin in itself. Where skin care ends, skin stories begin and we unanimously agreed that we want to go beyond just being a skin care brand. Lord's is committed to knitting a community where it is safe to tell your stories and find empowerment in the skin you live in. It doesn't matter where your journey began, you are here now and with us at Lord's it's all about an experience.

- Kartik Sharma

Reliability

Lords Cares understands that trust is the cornerstone of any successful partnership. We build reliability into every facet of our operation, from the meticulous selection of raw materials to the rigorous quality control checks that ensure every product meets our exacting standards. Our clients can depend on our consistent manufacturing processes, timely delivery, and transparent communication. We are committed to fostering long-term relationships built on unwavering dependability, providing the assurance that every product bearing the Lords Cares name is synonymous with quality, efficacy, and ethical practices. This dedication to reliability allows our partners to confidently present their brands, knowing they are backed by a manufacturer that prioritizes consistency and integrity above all else.

Manufacturing & Certifications

At Lord's Cares, we uphold the highest standards in skincare manufacturing, ensuring that every product meets global quality, safety, and regulatory requirements. Our manufacturing facilities are accredited by internationally recognized certification bodies, reinforcing our commitment to excellence, innovation, and compliance.

Our Certifications

1 GMP (Good Manufacturing Practices) Certified

We adhere to GMP guidelines, ensuring strict quality control, hygiene, and consistency across all production processes. From raw material selection to final packaging, every step follows regulated protocols to maintain product integrity and safety.

2 ISO 22716:2007 Certified (International Standard for Cosmetic Manufacturing)

Our ISO 22716:2007 certification reflects our commitment to best manufacturing practices, operational efficiency, and regulatory compliance in cosmetic production. This ensures that all products meet international quality benchmarks.

Manufacturing & Certifications

3 FDA Approved

As an FDA-registered manufacturer, we comply with all safety, ingredient, and labeling regulations, ensuring that our formulations meet both Indian and international market standards.

4 ECOCERT & COSMOS Compliant (For Natural & Organic Formulations)

For brands seeking natural and organic skincare, we offer ECOCERT & C O S M O S - c o m p l i a n t formulations.

5 Made Safe & Non-Toxic Certified

Our products are rigorously tested and certified to be free from harmful chemicals, toxins, parabens, and artificial irritants.

By partnering with Lord's Cares, you gain a trusted, certified third-party manufacturer dedicated to delivering premium, Korean-formulated skincare products that align with the highest industry standards.

Packaging and Designing

At Lord's Cares, we offer comprehensive packaging and design solutions to ensure your brand stands out in the market. As a leading third-party manufacturer, we provide a fully completed, ready-to-sell product, handling everything from concept creation to final packaging. Our expertise in premium Korean formulations is complemented by aesthetic, and functional packaging solutions, customized to meet industry standards.

1 Customized Packaging Solutions

We understand that packaging is the first touchpoint of your brand, and we ensure it reflects quality, innovation, and premium aesthetics. Our in-house packaging team works closely with brands to provide:

- **Primary Packaging:** Selection of bottles, jars, tubes, pumps and droppers, ensuring product integrity and user convenience.
- **Secondary Packaging:** High-quality boxes, cartons, and designed for both luxury and brands.
- **Material Selection:** From glass and PET to acrylic packaging options, we ensure premium product presentation.
- **Custom Shapes & Sizes:** Unique packaging designs that enhance usability and create a strong visual appeal.

Packaging and Designing

- ***Leak-Proof & Secure Packaging:*** We ensure that all products are tamper-proof, and travel-friendly, meeting global safety standards.

2 In-House Creative Design & Branding Support

Our expert design team helps conceptualize, create, and execute stunning packaging that aligns with your brand identity and target audience. We offer:

- ***Custom Artwork & Graphics:*** High-quality illustrations, patterns, and minimalistic designs to match modern beauty trends.
- ***Packaging Layout & Typography:*** Ensuring aesthetic appeal and clear product messaging with premium fonts, embossing, and foil stamping.

3 Private Label & Complete Product Development

For brands looking to launch ready-to-sell products, we offer a seamless private labeling process that includes:

- ***End-to-End Manufacturing & Packaging*** – From formulation to finalized, shelf-ready products, we handle everything.
 - **Custom Branding & Labeling** – Personalized designs that differentiate your brand in the market.
 - ***Low MOQs for Startups & Scalable Production for Large Brands*** – Catering to both new businesses and established beauty companies.
 - ***Standard Finishing & Quality Control*** – Every product is inspected, sealed, and tested to meet quality benchmarks.
- 

Warehousing and Dispatch

At Lord's Cares , we offer comprehensive warehousing and dispatch solutions to ensure seamless storage, inventory management, and timely delivery of fully completed products. As a trusted third-party manufacturer, we provide brands with a hassle-free logistics process, ensuring their products are securely stored, well-managed, and efficiently dispatched to meet market demands.

1 Advanced Warehousing & Storage Facilities

Our warehousing infrastructure is designed to accommodate bulk production, maintain product integrity, and ensure optimal storage conditions. We offer:

- ***Segregated Inventory Management*** – Dedicated storage areas for raw materials, packaging components, finished products, and bulk stock.
- ***Hygienic & Secure Environment*** – Our warehouses follow strict GMP guidelines, ensuring products are free from contamination, dust, and exposure to external elements.

Warehousing and Dispatch

2 Efficient Dispatch & Logistics Management

We ensure on-time and secure dispatch of products to domestic and international markets with a streamlined logistics system. Our dispatch process includes:

- ***Automated Order Processing*** – Ensuring quick turnaround times for order fulfillment.
- ***Custom Packaging & Labeling*** – Products are securely packed and labeled per client branding and regulatory requirements.
- ***Bulk & Small-Batch Dispatch*** – We support both high-volume shipments and small-scale dispatches, catering to businesses of all sizes.
- ***Global & Domestic Distribution*** – With established logistics partners, we provide safe and efficient shipping across India and international markets.
- ***Regulatory Compliance & Documentation*** – All shipments comply with export regulations.

Hair Range

The Indian hair care industry is one of the fastest-growing segments in the personal care market, valued at approximately ₹30,000 crore and projected to expand at a CAGR of 6-8% in the coming years. With rising consumer awareness, increased disposable income, and a shift towards ingredient-driven, natural, and problem-solving hair care products, the demand for high-quality, innovative formulations has never been higher.

Diversifying into hair care is a strategic move that enhances market presence and customer loyalty. Consumers today view hair care as an extension of skincare, seeking ingredient-driven solutions like hyaluronic acid for hydration, peptides for scalp health, and plant-based actives for damage repair. By adding shampoos, conditioners, serums, hair masks, and scalp treatments, brands can cater to a broader audience and establish themselves as comprehensive beauty solution providers.

Partnering with an experienced third-party manufacturer like Lord's Cares International allows businesses to tap into this lucrative market without the complexities of in-house production. Our expertise in formulation, research, and large-scale manufacturing ensures that your hair care products meet global standards, industry trends, and evolving consumer preferences.

With the rising trend of personalized beauty, clean hair care, and ingredient-led formulations, the hair care industry presents an untapped growth opportunity for brands looking to scale. By partnering with Lord's Cares International, you gain access to world-class manufacturing, ensuring that your products meet the highest quality standards while positioning your brand as an industry leader.

Men's Grooming

The Indian men's grooming industry has witnessed phenomenal growth, evolving from basic shaving products to a full-fledged personal care segment that includes skincare, hair care, beard care, and fragrances. With a market size of ₹16,800+ crore in 2023 and an expected CAGR of 11-15%, this sector is becoming a major revenue driver in the beauty and personal care industry.

The men's grooming market is no longer a niche—it's a rapidly growing sector with huge demand for premium, problem-solving, and innovative formulations. With increasing awareness of self-care, skin health, and professional grooming, brands that offer tailored solutions for men can tap into a loyal and growing customer base.

Creating a high-performance men's grooming brand requires expert formulations, R&D, and market insights.

Our cutting-edge research & development ensures that brands can deliver premium, innovative, and effective grooming products for the modern Indian man.

With rising disposable incomes, changing beauty standards, and a strong digital influence, the men's grooming industry is set to double in the coming years. Whether you're launching a new grooming brand or expanding an existing personal care line, partnering with Lord's Cares International ensures world-class quality, innovation, and scalability.

Skin Care

Currently valued at ₹20,000+ crore, the Indian skincare market is projected to grow at a CAGR of 10-12%, making it one of the fastest-growing segments in the beauty and personal care sector. The boom in e-commerce, social media marketing, and influencer-driven recommendations has made high-quality skincare more accessible to urban and even tier-2 and tier-3 city consumers, further accelerating industry growth.

For new and existing beauty brands, the skincare industry offers endless opportunities. Expanding into serums, moisturizers, sunscreens, toners, and face masks helps brands build stronger customer loyalty and higher profit margins.

Moreover, skincare is no longer just about beauty—it's about self-care and wellness, making it a recession-proof industry with steady consumer demand.

Building a skincare brand requires expert formulation, high-quality ingredients, and strict compliance with safety standards. With our cutting-edge R&D and high-performance ingredients, we help brands develop trending, effective, and market-ready skincare products.

The Indian skincare industry is set to cross ₹30,000 crore in the next few years, making now the perfect time to invest. Whether you're launching a new skincare line or expanding an existing beauty brand, partnering with Lord's Cares ensures world-class quality, innovation, and scalability.

Body Care

The Indian body care industry is rapidly expanding, fueled by increasing consumer awareness, rising disposable incomes, and a shift towards self-care. Traditionally, body care in India was limited to basic lotions and oils, but today, consumers are demanding science-backed, ingredient-driven, and problem-solving formulations similar to skincare. The market, currently valued at ₹10,000+ crore, is growing at a CAGR of 8-10%, making it a lucrative segment for beauty and personal care brands.

For brands already in the skincare sector, body care is a natural extension that allows them to increase customer lifetime value. Consumers are now treating their body skin as seriously as their face, leading to higher demand for hydration, repair, anti-aging, and sun protection solutions for the entire body.

Expanding into body lotions, body serums, body oils, sunscreens, and exfoliants helps brands cater to a wider audience while maintaining brand loyalty and trust.

Building a body care brand requires expert formulation, high-quality ingredients, and regulatory compliance—this is where Lord's Cares becomes the perfect partner.

With our cutting-edge R&D and high-performance ingredients, we help brands develop innovative and market-ready body care products that align with Indian consumer needs.

With self-care becoming a lifestyle trend, the Indian body care market is poised for tremendous growth. Whether you are launching a new body care line or expanding an existing beauty brand, partnering with Lord's Cares International ensures world-class quality, innovation, and scalability.
